

# MD. Nowazesh Kobir Rifat

## Backend Developer

Dhaka, Bangladesh

nk.rifat47@gmail.com | +8801737947972

Portfolio: <https://nowazesh-kobir-rifat.vercel.app/> GitHub: <https://github.com/NKRifat47>

## Career Objective

---

Hardworking backend developer with hands-on experience in API development, authentication, and databases. My goal is to join a development team where I can improve my skills and help build stable backend services.

## Skills

---

**Language** : Javascript(Node.js)| C | C++ | Java | Go (Golang) | SQL | Bash | Python

**Frontend** : React.js | Next.js | HTML

**Backend** : Node.js | Express.js | MongoDB | Mongoose | PostgreSQL | Authentication

**Tools** : Git | Github | VS Code | Vercel |

**Soft Skills** : Problem Solving | Critical Thinking | Communication | Collaboration

## Projects

---

### 1. REST API with MongoDB (Ongoing)

A fully functional backend REST API built using Node.js, Express, and MongoDB for structured CRUD operations.

- Building API endpoints for creating, reading, updating, and deleting data.
- Implementing MongoDB models with Mongoose for schema design and validation.
- Structuring the backend using controllers, routes, and models for clean and scalable architecture.
- Actively testing APIs using Postman during development.

**Technologies:** Node.js | Express.js | MongoDB | Mongoose | Postman

### 2. GoCommerce (Ongoing)

An ongoing e-commerce backend system built using Golang with a clean, scalable architecture.

- Developing full product management features including product creation, update, deletion, listing, and detailed view.
- Building user module structure with models and validation to support secure account management.
- Integrating PostgreSQL with database connection handlers and migrations for stable data storage.
- Implementing RESTful API endpoints with Go's net/http and custom routing using http.ServeMux.

**Technologies:** Go (Golang) | net/http | PostgreSQL | Middleware | REST API

## Education

---

Daffodil International University | Jan 2022 - Present

Bachelor of Computer Science & Engineering

## Language

---

Bangla (Native) | English (Fluent)
